

“Working with nature is to nourish the soil  
so the plants feed themselves.”

Ian Munro

*We work with nature to fix soil simple, so you can be a healthy,  
sustainable gardener, with no pressure on your mind or your pocket!*

## ROCKDUST'S TRUSTY SIDEKICK

Renew is a natural mineral liquid folia fertiliser which promotes long term sustainable fertility, improving uptake of vital nutrients, resulting in better growth.

### RENEW FACT #1

Renew loves your plants. It contains macro and micro nutrients and minerals that enhances your plants, veggies and trees ability to take what they need from the soil in order to flourish.

### RENEW FACT #2

Renew stimulates balance and above ground growing. It supports activity, which means the soil is able to degrade more plant residues, quickly, releasing nutrients and improving soil organic matter.

### WHY RENEW IS ROCKDUST'S BIGGEST SUPPORTER:

- Is a top source of food for the plant
- Keeping a balance in plants.
- Protect it from disease and bacterial fungus.
- Keeping a healthier plant means it can utilise the minerals from Rockdust and soil quicker
- Plants are less dehydrated
- Improves the quality, structure and vigour of the plant

100% natural. Safe around children and pets.
